Summary

Results-driven AI enthusiast and Bachelor of Computer Applications graduate with an established foundation in Machine Learning, Deep Learning, and Generative AI. Certified Oracle AI Foundations Associate with hands-on expertise in Prompt Engineering, Large Language Models (LLMs) including ChatGPT, and Chatbot development. Passionate about AI literacy with excellent presentation skills, demonstrating a strong ability in teaching beginners and conducting AI-focused training sessions. Highly capable of developing advanced prompts to automate workflows, accelerate research, and integrate AI seamlessly into practical business applications.

Education

Lachoo Memorial College of Science & Technology <i>Bachelor of Computer Applications – CGPA: 8.6</i>	2023-2026 Jodhpur, Rajasthan
Swami Vivekanand Govt. Model School <i>All India Senior School Certificate (Class XII) – 63%</i>	2022-2023 Phalodi, Rajasthan
Swami Vivekanand Govt. Model School <i>All India Secondary School Examination (Class X)– 75%</i>	2020-2021 Phalodi, Rajasthan

Experience

Hypersoft Solutions <i>Software Engineer Intern</i>	Dec 2025 – Feb 2026 Secunderabad, Telangana
- Developed and maintained Windows-based software applications using .NET Framework, C#, and SQL Server. - Designed and optimized SQL queries, reducing database retrieval time by 30% and improving overall application performance. - Collaborated with senior developers to debug and resolve software issues, contributing to a 20% reduction in reported bugs during testing. - Gained hands-on experience in Software Development Life Cycle (SDLC), debugging, database management.	

Technical Projects

Student Integration Portal (SIP) Flutter, MySQL, PHP	Feb 2026
- Developed and managed the backend architecture of the Student Integration Portal (SIP), a centralized academic management system for students and faculty. - Designed and implemented secure backend modules using PHP and MySQL for attendance management, marks handling, notifications, and event management. - Implemented authentication and role-based access control for students and faculty dashboards with secure login validation.	
Personal Portfolio Website HTML5, CSS3, Javascript, LLM API	Dec 2025
- Designed and developed a fully responsive personal portfolio website to showcase academic projects, technical skills, and professional achievements. - Integrated a custom AI-powered chatbot using JavaScript and an LLM API to interact with visitors and answer questions about my skills and experience in real-time. - Leveraged prompt engineering techniques to ensure the chatbot provided accurate, professional responses, demonstrating hands-on experience with practical Generative AI applications. - Built interactive and user-friendly UI components using HTML5, CSS3, and JavaScript, improving overall user engagement and navigation experience.	

Certifications

Oracle Cloud Infrastructure Certified AI Foundations Associate

Oracle University (2025)

Student

18 October 2025

- AI and ML Basics: Mastered foundational concepts differentiating artificial intelligence, machine learning, and deep learning.
- Generative AI & LLMs: Discovered the capabilities and applications of generative AI models and language frameworks.
- Workflow Automation: Learned how generative AI tools can be utilized to automate and enhance a wide range of tasks, directly applicable to integrating AI into Excel, PowerPoint, and daily productivity workflows.
- Core Competency: Demonstrated strong foundational knowledge of artificial intelligence and machine learning concepts, as well as the role of large language models and related OCI.

Technical Skills

AI & Machine Learning: Artificial Intelligence, Machine Learning, Neural Networks, Generative AI, Advanced Prompt Engineering, LLMs (ChatGPT, Gemini, Perplexity), Custom Chatbot Workflows.

Languages: Python, R, Javascript, C++, C#, SQL, PHP, Dart.

Technologies: React.js, Express.js, jQuery, Tailwindcss, Bootstrap, ASP.NET, Node.js, MongoDB, MySQL.

Tools & Platforms: Github, Postman, VS Code, Render, Vercel.
